Let's Talk about Dreams! Sharing a Dream! Having a Vision!

At the summer board meeting, board members from across the state were asked "What hopes and dreams do you have of what AAUW Iowa can do and be. How do you see yourself in AAUW?" Discussion was lively and energetic. A summary in the form of abbreviated statements follows. *We see ourselves as similar women, homogenous in gender and ethnicity, rich in diverse experiences, training and background. We see ourselves frequently considered "feminists" we know we are often categorized by age as "mature", or "seasoned" individuals. When asked to think about what IAAUW of Iowa COULD BE a treasury of ideas spilled forth. Some of the most graphic language suggested that we could be a "light", or that we could form a strong "link" between branches and the state organization, or that we could be a "go to" organization, or that we could be "powerful", or relevant", or "influential" or that we could act as a "web" rather than as a "ladder" for women"*

Resulting from these discussions the board agreed by consensus that it's' task for the coming year would be to strive to make real this vision, stating its' hopes in the following language;

We will strengthen connections with branches (in order) to address relevant community issues in education, economic equity and engage in political action and increase visibility for women.

In order to make "real" the hopes and dreams embodied in this statement the members of the board took at its' summer meeting committed themselves to visiting all the branches in Iowa, listening and talking with branch members to learn what their hopes, dreams and visions might be. To implement this idea focus groups will occur between October 2007 and spring 2008.
