

Time for Tech Trek

July 9-15, 2017

BUENA VISTA
UNIVERSITY

Storm Lake, Iowa

Make your plans NOW!

Seventh grade science and math teachers are encouraged to nominate students now for the July 9-15, 2017, summer camp program at Buena Vista University. Interested students are welcome to inquire about it, too --- so get involved with Tech Trek today!

Here's what campers said:

- *"My experience at Tech Trek was absolutely amazing! I had so much fun learning about chemistry, engineering, genetics, mathematics, app development, technology, general sciences, and astronomy! But most importantly, I learned that there are many other girls in the state that are very similar to me! Meeting all of these amazing girls really took my experience at Tech Trek to a whole new level, and I would not have enjoyed it almost at all if it wasn't for them."*
- *"I realized that I am way more interested in STEM than I thought. I'm more confident in my STEM skills. I loved the other girls at camp and had a great time in my classes."*
- *"Being with so many people who were interested in the same things that I am and learning about the things we loved was awesome. I know I am going to do my best in every class, knowing it will help my career and future."*

Tech Trek is an exciting and engaging one-week summer camp for 7th grade girls featuring hands-on science and technology classes, a fun and educational field trip, opportunities to meet inspiring women role models, and a unique college campus experience at Buena Vista University in Storm Lake.

At Tech Trek, girls are immersed in a world that empowers and encourages them to think about themselves as future scientists, engineers, mathematicians, and computer specialists. To apply, girls must be nominated by their science or math teacher.

Tech Trek is a program of the American Association of University Women (AAUW), the nation's leading voice promoting equity and education for women and girls.
